Madrid, Aug. 24.

ON Monday last arrived here an Expreſs from *Cadiz*, with advice that the Galeons arrived there the 18th inſtant; that they bring 23 Millions of Pieces of Eight for particular perſons, but only 960000 for the King, which happens through the great Sums that have been paid by the Kings order for the diſcharge of his Debts in the *Weſt Indies*; but the Duties which will ariſe to the King from the Effects of the Merchants, will come to a very conſiderable Sum: the *New Spain* Fleet, and the Quick-Silver Ships, are not come with the Galeons, the General *Don Henriques de Guſman*, not having thought fit to ſtay for them at the *Havana*; but they are expected at *Cadiz* ſome time the next week; and we are told that they bring four Millions of Pieces of Eight for the Kings account. Great preparations are making here for the Queens reception; ſeveral triumphal Arches are ſetting up, &c. and we are told that her Majeſty will be here about the middle of *November*.

Copenhagen, Sept. 9. Our King is at preſent here, and we cannot yet certainly ſay when he will return to *Holſtein*. Our Fleet was ſome days ſince in very bad weather off of *Bornholme*, where the ſhip called the *North Lyon*, mounted with 84 Guns, and commanded by Vice-Admiral *Spaen*, was caſt away, and moſt of the Men loſt, the Vice-Admiral was taken up, but has been ſince ſo ill, that it's feared he will die. By a Veſſel arrived from *Calmar* we have advice, that greateſt part of that City was burnt down to the ground by a fire which began accidentally. We have an account that the Swedes are fallen with 5000 men and 40 pieces of Cannon into *Norway*.

Berlin, Sept. 10. The Moſcovite Ambaſſador that was in *Denmark* is arrived here, having a Train of about 60 perſons; he comes to demand aſſiſtance againſt the Turks, but it's believed he will be anſwered, that our Elector has ſuffered too much in the late War, to enter into any Engagements of that kind.

Hamburg, Sept. 12. We are told that the King of *Denmark* will be this night at *Tinnenberg*; and that he has ordered 4 or 5000 Landmen, which are now on board his Fleet, to diſembark, and to march hither to join his Forces in theſe parts; our advices likewiſe ſay, that he raiſes more men, and that he has taken into his ſervice above 200 Officers, who had ſerved the Duke of *Hanover*, and were diſbanded by him. The Fort which Lieutenant General *Wedel* is raiſing on the *Eybe*, is already ſo far advanced, that we are aſſured it will be finiſhed in few days. Theſe things do not a little alarm us here, and our Magiſtrates are going to raiſe more men, though their chief reliance is upon the Princes of *Lunenburg*, who we doubt not but will be ready to aſſiſt us in caſe any thing happen to us.

Hamburg, Sept. 12. Yeſterday arrived here an Expreſs from *Paris*, with an account that the Peace between the two Northern Crowns was ſigned; and that one of the Articles was, That a Ceſſation of Arms ſhould immediately take place. From *Franckfort* we have an account, that Count *Fœrſtenberg* of *Furſtenberg*, had in the Emperors name, declared to the States of the Circles of *Suabia*, aſſembled at *Ulme*, that his Imperial Majeſty could not think fit to draw his Forces out of that Circle, ſo haſtily as they ſeemed to deſire he would, for that he knew the danger they would by that means be expoſed to, and that they themſelves, he doubted not, would be of this opinion, when the deſigns of the French upon the City of *Strasburg*, did a little more diſcover themſelves. The Emperor we underſtand has demanded of the Prince of *Anhalt* quarters for 4000 men, who acquainting the Elector of *Brandenburg* therewith, his Electoral Highneſs has reſolved to aſſiſt that Prince with part of his Army to hinder the Imperialiſts from taking quarters in his Country, which it's thought may beget a miſunderſtanding between the Emperor and the Elector, who are not at preſent very well together. Notwithſtanding the Peace, the Daniſh Officers are buſie in making recruits, which encreaſes the jealouſie of this City. It is reported that the Alliance between the Princes of *Lunenburg*, and the Biſhop of *Munſter*, is finiſhed. And that this laſt will keep 12000 men conſtantly on Foot for the ſervice of *France*.

Cologne, Sept. 12. Our Elector ſeems not as yet to have any intention to remove from hence, and it is almoſt believed he will remain here this Winter, which people here do not like, and think it is with ſome deſign; and theſe their ſuſpitions are encreaſed by the Advices we have from ſeveral hands, that according to all appearance the French are going to attack the City of *Strasburg*, in favor of the of that Biſhop, who has much the ſame pretenſions upon that City, as our Elector has upon this.

Bruſſels, Sept. 15. His Excellency is returned hither, after having ſetled matters in the ſeveral Provinces to his ſatisfaction. As for the Subſidies he demanded, the States of *Luxemburg* have granted 450000 Florins a year, towards the maintaining the Troops that are to be kept conſtantly on foot. They of *Limburg* have granted 100000, beſides the 40000 they advanced for the paying the Garriſons of that Country. The States of *Namur* have granted 100000, beſides a Preſent of 2000 Crowns to his Excellency. The States of *Flanders* have not yet ſetled this Point, but will very ſpeedily; to theſe Sums, and thoſe to be furniſhed by the other Provinces, the King will add 100000 Crowns a month, which will maintain an Army of 35000 Foot, and 5000 Horſe; and theſe we hope to ſee actually on Foot before the end of this year. *Don Pedro de Ronquillo*
